

***I Get a Clue* and *We All Get a Clue* take place in Edinburgh. Libby Carlsen and her friends have some exciting adventures there. I've created a puzzle based on some of the words in the novels. I hope your pre-teen enjoys it.**

PLAY THE GAME

The words below are found in those adventures. Can you find the letter that is common to all three words in a line and match that letter to the number space in the sentence below? When you match the letters with the numbers, you will be able to read the message.

1. tea, torch, football
2. tartan, rain, cheers
3. bus, uniform, burger
4. bakery, Deuteronomy, city
5. telescope, email, Libby
6. friends, guest, salt
7. umbrella, museum, Malcolm
8. Edinburgh, porridge, fete
9. Royal Mile, missionary, spy
10. Princes Street, carpark, biscuits
11. festival, castle, queue
12. bagpipes, haggis, shops

If you want to solve the $\frac{\quad}{7} \frac{\quad}{4} \frac{\quad}{12} \frac{\quad}{1} \frac{\quad}{11} \frac{\quad}{2} \frac{\quad}{9}$,
you must, like Libby and her friends, be on the lookout

for $\frac{\quad}{10} \frac{\quad}{5} \frac{\quad}{3} \frac{\quad}{8} \frac{\quad}{6}$.
